**Coupon Rate:** 2.5% quarterly (10% p.a.)

**Initial Index Level:** The Closing Level of the FTSE™ 100 Index on the Strike Date

**Capital Protection:** Your Initial Capital will be returned in full at maturity regardless of the performance of the Index

**Availability:** Direct; ISA/ISA Transfers; Pensions; Companies; Trusts; Charities; Offshore Bonds

**Taxation:** Income Tax

**Goldman Sachs International Bank** offers investment banking, securities and investment management services to corporations, financial institutions, governments and high net worth individuals worldwide. The company is part of the Goldman Sachs Group, a US-based banking and financial services organization. GSIB is registered in England and Wales (no 1122503) and authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority. GSIB are the Deposit Taker for the Callable Deposit Plan; therefore investors are exposed to the risk of them defaulting on their obligation to repay the capital and any returns due under the terms of the Deposit Plan.

## The Callable Feature

On each quarterly Observation Date, from the second anniversary onwards, the Deposit Taker has the option to 'call' the Deposit Plan at their discretion. This means the Deposit Plan will be redeemed at that point and investors will receive their Initial Capital into the Deposit Plan, together with the fixed rate of return detailed above. For example, if the Deposit Taker called the Deposit Plan on the second anniversary, the investor would receive 100% of their Initial Capital plus a 20% return.

The main reason this may happen is because GSIB believes the enhanced growth participation that could be paid out at maturity, may be higher than the coupons that have accumulated so far. It works in a very similar way to having a cap on the maximum payout. For example, if after 4 years the Index has grown by 25% and seems set to continue growing, the Deposit Taker may feel that they will be better off redeeming the Deposit Plan and paying 4 years of the fixed annual return, rather than potentially paying the Index related return once the Deposit Plan matures.

Although this feature allows the Deposit Taker to avoid paying very high returns, the fixed annual return is set at a rate that is attractive, particularly when combined with the capital protection feature.

## Key Dates

Plan Opening Date: 6<sup>th</sup> April 2020  
ISA transfer deadline date: 1<sup>st</sup> May 2020  
Cheque application deadline: 8<sup>th</sup> May 2020  
All other application form deadlines: 15<sup>th</sup> May 2020  
Strike Date: 22<sup>nd</sup> May 2020  
Deposit Start date: 1<sup>st</sup> June 2020  
**Minimum Investment:** £10,000  
**Identifier Reference:** GS00SD000854

## Investment Description

This is a 8 year 2 week Deposit Plan based on the performance of the FTSE™ 100 Index. The Deposit Plan is constructed to offer a potential return of 10% per annum to the redemption date if the Deposit Taker calls the investment early or 200% participation in any growth of the FTSE™ 100 Index at maturity. If the Deposit Plan is not called early, at maturity, the investor receives a return of 200% of any positive growth in the FTSE™ 100 Index. For example, at maturity, if the FTSE™ 100 Index had risen 10% from the Initial Index Level, the investor will receive 100% of their investment back plus a 20% growth payment (10% X 200%).

The opportunity for full capital protection and enhanced growth is the key aim of this investment. The investment is linked to one of the best-known indices in the world and investors will benefit from geared growth in the Index unless, the Deposit Taker, Goldman Sachs International Bank (GSIB) "calls" the deposit early, in which case investors will be paid a very competitive fixed rate of return - considerably better than current cash rates. The enhanced participation is designed to more than make up for the loss of dividends a direct investor into the Index would benefit from, and although the returns are effectively capped, because the deposit is very unlikely to deliver more than the 10% per annum coupon rate, the cap is at an attractive level relative to current interest rates. The initial investment, minus any initial Adviser Fee, will be returned in full on the Maturity Payment Date, or if GSIB calls the Deposit Plan early, regardless of the performance of the Index.

## The Underlying Index

The **FTSE™ 100** Index represents the performance of shares in the most valuable companies listed on the London Stock Exchange. The components are the largest companies by Market Capitalisation (which measures the value of all the shares outstanding in that company, regardless of where they're held). The Index weights companies by size, so the largest companies in the Index have the greatest effect on its performance and most of these have strong international exposure, which means the Index isn't solely representative of the UK economy.

## The Callable Deposit Plan (Issue 10)

### Investment Summary

FSCS Protection for eligible investors

#### Suitability

##### This Deposit may be suitable for investors who:

- Are seeking the opportunity for higher returns than current cash rates at the time this Deposit Plan is launched
- Understand how the capital protection works
- Wish to have exposure to the Underlying Index
- Understand the Deposit Taker may call the Deposit Plan early, returning 100% of your Initial Capital plus a return of 10% per annum
- Are looking to invest for the medium to long term, being happy to remain invested until the Maturity Date
- Can afford to have their cash invested for the full term of the Deposit Plan
- Wish to use this investment as part of a well-diversified portfolio
- Understand the risk to capital in the event of a Deposit Taker default
- Should they need to encash their investment before maturity, accept that the trading price may mean they get back an amount less than they invested
- Appreciate that the fixed rate of return is conditional on Goldman Sachs International Bank calling the investment

##### This Deposit may not be suitable for investors who:

- Have not received advice, completed an appropriateness test or spoken to a financial adviser who deems the Deposit Plan appropriate for them
- Don't understand the risks of the Deposit Plan
- Require a guaranteed income
- Don't want exposure to an equity Index
- Require access to their investment over the term
- Are unsure how the Deposit Plan works
- Do not have at least £10,000 to invest
- Are not comfortable that their investment may be at risk if the Deposit Taker becomes insolvent
- Cannot make an informed decision based on the information within this brochure or from the Deposit Taker's Key Investment Document (KID)

#### Risks

All investments carry risk. Prior to investing in the Deposit Plan you need to make sure you fully understand the risks you are taking and accept these. Having read the Brochure and supporting material, if there are any areas that you are still unsure about, please consult with your financial adviser who will be able to help you.

##### Deposit Taker Risk

There is a risk that the Deposit Taker could go into administration, become bankrupt or collapse. This would mean that it could fail to make the payments due in relation to the Deposit Plan. In the event of this happening an Investor could lose some or all of their investment as well as any of the returns to which they may otherwise have been entitled.

##### Market Risk

Underlying asset performance may be volatile and subject to unpredictable changes over the investment term (see the chart of the Underlying Index on page 5). The value of your investment is affected by movements in the price of this Index and a fall may result in you not receiving any return on your Initial Capital. Your investment does not directly invest in the Underlying Index, therefore you are not eligible for dividends.

##### Early Redemption Risk

You should be prepared to hold the Deposit Plan until maturity. It may be possible, subject to normal market conditions and regulatory, legal and financial or other conditions of the Deposit Taker or its affiliates, to withdraw from the Deposit Plan before the Maturity Date. If you decide to encash the Deposit Plan early you may not get back your Initial Capital. (Please see Liquidity risks on page 4 of the brochure).

##### Market Disruption Events

It is possible that a market disruption event might occur, such as trading disruption, changes to an index, changes to index providers or changes in tax legislation. In these circumstances, the Deposit Taker has the right to determine whether any adjustments to the terms of the Deposit Plan are required. These adjustments may include, but are not limited to: adjustments to the opening or final level of the Underlying Index, postponing observation dates and substitution of the Underlying Index. The Deposit Taker is required to act in good faith when making any adjustments.

##### Reinvestment Risk

To invest in the Deposit Plan, you need to deposit your capital for a set length of time. During this period, a rise or fall in interest rates may present other investment opportunities with a greater return. Should you decide to encash the Deposit Plan, you may get back less than your Initial Capital (Please refer to Early Redemption Risk wording on page 8 of the brochure).

##### Inflation Risk

The value of your investment and any returns you may qualify for are not linked to inflation. If inflation is high over the term of the Deposit Plan, the real value of the Deposit Plan may decrease thus affecting the real value of any returns you may receive.

##### Concentration Risk

You should speak to your advisor to make sure that your investments are diversified. Investing too much into any single investment increases concentration risk.

##### Taxation Risk

Tax legislation may change during the life of the Deposit Plan. The tax treatment described of this Deposit depends on the individual circumstances of each Investor and may be subject to change in the future. Neither IDAD nor James Brearley provide tax advice and you should seek independent tax advice if in doubt.

This Summary does not constitute investment advice from either IDAD or the Deposit Taker and must not be construed as such by advisers or investors. Capital is subject to Deposit Taker risk. Investors should read the brochure in full and be sure they understand the terms of the product before investing. IDAD Limited is Authorised and Regulated by the Financial Conduct Authority FCA FRN 740499. No part of this publication may be reproduced, copied or distributed without the prior permission in writing of IDAD. Returns from the Deposit are at risk in the event the Deposit Taker defaults on their financial obligations. All investors should seek advice from a suitably authorised financial adviser or complete appropriateness test where relevant.
