

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	Autocallable Barrier Worst-of Phoenix Note Linked to a Basket of Indices
Product identifier	ISIN: XS2426257148
PRIIP manufacturer	Barclays Bank PLC (www.barx-is.com). The PRIIP manufacturer is also the product issuer. Call +44 (0) 20 7116 9000 for more information.
Date and time of production	6 September 2022 10:27 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

English law governed notes

Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of (1) conditional interest payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the **underlyings**. The product has a fixed term and will terminate on the **maturity date**, unless terminated early. If, at maturity, the **final reference level** of the **worst performing underlying** has fallen below its **barrier level**, the product may return less than the **product notional amount** or even zero.

Early termination following an autocall: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference level** of the **worst performing underlying** is at or above its **autocall barrier level**. On any such early termination, you will on the immediately following **autocall payment date** receive, in addition to any final interest payment, a cash payment equal to the autocall payment of GBP 1. No interest payments will be made on any date after such **autocall payment date**. The relevant dates are shown in the table(s) below.

Autocall observation dates	Autocall payment dates
28 October 2024	11 November 2024
28 January 2025	11 February 2025
28 April 2025	13 May 2025
28 July 2025	11 August 2025
28 October 2025	11 November 2025
28 January 2026	11 February 2026
28 April 2026	13 May 2026
28 July 2026	11 August 2026
28 October 2026	11 November 2026
28 January 2027	11 February 2027
28 April 2027	13 May 2027
28 July 2027	11 August 2027
28 October 2027	Maturity date

Interest: If the product has not terminated early, on each **interest payment date** you will receive an interest payment of GBP 0.02 if the **reference level** of the **worst performing underlying** is at or above its **interest barrier level** on the immediately preceding **interest observation date**. If this condition is not met, you will receive no interest payment on such **interest payment date**. The relevant dates are shown in the table(s) below.

Interest observation dates	Interest payment dates
30 January 2023	13 February 2023
28 April 2023	15 May 2023
28 July 2023	11 August 2023
30 October 2023	13 November 2023
29 January 2024	12 February 2024
29 April 2024	14 May 2024
29 July 2024	12 August 2024
28 October 2024	11 November 2024
28 January 2025	11 February 2025
28 April 2025	13 May 2025
28 July 2025	11 August 2025
28 October 2025	11 November 2025
28 January 2026	11 February 2026
28 April 2026	13 May 2026
28 July 2026	11 August 2026
28 October 2026	11 November 2026
28 January 2027	11 February 2027
28 April 2027	13 May 2027
28 July 2027	11 August 2027
28 October 2027	Maturity date

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

- if the **final reference level** of the **worst performing underlying** is at or above its **barrier level**, a cash payment equal to GBP 1; or
- if the **final reference level** of the **worst performing underlying** is below its **barrier level**, a cash payment directly linked to the performance of the **worst performing underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** of the **worst performing underlying** divided by (B) its **strike level**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlyings**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include accrued interest on a pro rata basis.

For display purposes numbers within this document have been cut off at 4 decimal places.

Underlyings	EURO STOXX 50® Index (Price return index) (SX5E; ISIN: EU0009658145; Bloomberg: SX5E Index; RIC: .STOXX50E) and FTSE 100 INDEX (Price return index) (UKX; ISIN: GB0001383545; Bloomberg: UKX Index; RIC: .FTSE)	Reference level	The closing level of an underlying as per the relevant reference source
Underlying market	Equity	Reference sources	• SX5E: STOXX Limited • UKX: FTSE International Limited
Product notional amount	GBP 1	Final reference level	The reference level on the final valuation date
Issue price	100% of the product notional amount	Initial valuation date	28 October 2022
Product currency	Pound Sterling (GBP)	Final valuation date	28 October 2027
Underlying currencies	• SX5E: Euro (EUR) • UKX: GBP	Maturity date / term	11 November 2027
Issue date	11 November 2022	Autocall barrier level	100% of the initial reference level
Initial reference level	The reference level on the initial valuation date	Day count fraction	Actual/365 Fixed
Strike level	100% of the initial reference level	Interest barrier level	70% of the initial reference level
Barrier level	65% of the initial reference level	Worst performing underlying	For a given date, the underlying with the worst performance between the initial reference level and the relevant reference level

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

- they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
- they seek income and/or capital growth, expect the movement in the underlyings to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
- they accept the risk that the issuer could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
- they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

The product is not intended to be offered to retail clients who do not fulfil these criteria.

2. What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance of the **underlyings** at a medium level and the potential for us to be unable to pay you any amounts due as very unlikely.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: GBP 10,000		1 year	3 years	5 years (Recommended holding period)
Scenarios				
Stress scenario	What you might get back after costs	GBP 4,274.39	GBP 3,969.24	GBP 3,120.08
	Average return each year	-57.2561%	-26.5087%	-20.7803%
Unfavourable scenario	What you might get back after costs	GBP 7,839.64	GBP 6,760.11	GBP 6,006.11
	Average return each year	-21.6036%	-12.2357%	-9.6936%
Moderate scenario	What you might get back after costs	GBP 9,867.13	GBP 11,612.00	GBP 11,600.00*
	Average return each year	-1.3287%	5.1079%	3.0129%
Favourable scenario	What you might get back after costs	GBP 10,643.07	GBP 11,902.39	GBP 13,400.00
	Average return each year	6.4306%	5.9769%	6.0281%

* This scenario assumes that the product early terminates in November 2024 and you do not reinvest the proceeds.

This table shows the money you could get back over the next 5 years under different scenarios, assuming that you invest GBP 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future.

Costs over time

<i>Investment: GBP 10,000</i>			
<i>Scenarios</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 3 years</i>	<i>If you cash in at the end of the recommended holding period</i>
Total costs	GBP 621.00	GBP 571.00	GBP 571.00*
Impact on return (RIY) per year	6.5056%	2.0802%	1.2184%

* The costs are calculated on the basis that the product early termination feature activates in November 2024 and that you do not reinvest the proceeds.

The "Total costs" in the table above represents in monetary terms the aggregated amount of costs associated with the investment, assuming the product performs in line with the moderate performance scenario. The "Impact on return" represents how much the expected costs of the product would affect your return in such scenario. Disregarding the impact on your return in that scenario or any early termination event, the estimated entry and exit costs as a percentage of the **product notional amount** are estimated to be 6.21% if you cash in after 1 year, 6.21% if you cash in after 3 years and 5.71% if you cash in at the end of the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs	<i>Entry costs</i>	1.2184%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0%	The impact of the costs of exiting your investment when it matures.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 5.71% and exit costs: 0%.

5. How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 11 November 2027 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Not applicable	Price quotation	Percentage
Smallest tradable unit	GBP 1,000		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: KID Complaints Team, 5 The North Colonnade, Canary Wharf, London E14 4BB, UK, by email to: IBKIDComplaints@barclays.com or at the following website: www.barx-is.com.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The product is not in any way sponsored, sold or promoted by any relevant stock market, relevant index, related exchange or index sponsor. Further information in respect of the index is available from the index administrator.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Barclays Bank PLC, 1 Churchill Place, London, E14 5HP, England, UK.
